**A Station-to-Station Call** is one on which you ask to talk with anyone available at the telephone called and do not request a specific individual, department or an extension telephone

reached through a private switchboard.

**A Person-to-Person Call** is one on which you ask for a certain person, a department or extension telephone reached through a private switchboard.

**FOR ADDITIONAL LONG DISTANCE INFORMATION, SEE PAGE 2**

NORTHWESTERN BELL TELEPHONE COMPANY

## BUSINESS TRANSACTIONS WITH THE COMPANY

**Business Office**—510 5th Street. Hours—8 A.M. to 5 P.M. except Sundays and Holidays. At other times calls for the business office will be answered by a representative who will handle business requiring immediate attention and who will arrange for the handling of other business on the following business day.

Bills which are issued monthly cover local service charges for one month in advance from the date of the bill and long distance charges for one month preceding the date of the bill. They are due upon presentation. Payment may be made by mail or in person at the business office, or at the Coe Flower Shop, 2542 Lincoln Way.

Regulations and tariffs governing the furnishing of the various services by the telephone company are on file in the business office.

## GENERAL INFORMATION

**Service Can Be Suspended** at a reduced rate and your number retained when you are to be away from your residence for an extended period. No charge is made to re-connect service.

**Telegrams by Telephone**— You may telephone telegrams, cablegrams and radiograms to the Western Union Telegraph Company and have the charges placed on your telephone bill. You may also telephone your telegrams from public coin box telephones and pay for the message as you would for a telephone call.

**Telephone Directories**— The telephone company issues directories to assist it in furnishing prompt and convenient service, but it does not guarantee correct listings therein. The telephone company shall not be liable for damages arising out of errors in or omissions from its directories. As a matter of good service, the telephone company retains ownership of telephone directories.

**Telephone Attachments**— Attachment of auxiliary apparatus to telephone instruments generally interferes with service. Therefore, we request you to refrain from attaching any devices, not supplied by the Company, to the telephone instrument or other equipment. For the same reason, we also request that no advertising devices be attached. The telephone company reserves the right to remove all such apparatus and devices.

## LONG DISTANCE CALLS

**To Make a Station-to-Station Call** — Give the "Long Distance" operator the name of the town and the telephone number or

street address of the person you are calling. A station-to-station call is one on which you will talk with anyone available at the telephone called. Charges begin when the number called has been answered and are based on an initial period of three minutes. Station-to-Station calls cost less than Person-to-Person calls.

**To Make a Person-to-Person Call** — Give the operator the town, the name of the person you want, and his telephone number or street address. Charges begin when the calling person speaks to and receives a response from the called person and are based on an initial period of three minutes.

**Reduced Rates** are in effect between 6 P.M. and 4:30 A.M. each week day and at all hours on Sunday, on calls for distances of about 50 miles or more. The minimum reduced rate is 35 cents for Station-to-Station calls, and in general, 50 cents for Person-to-Person calls.

**To Reverse the Charges** notify the operator when you place the call. There is no extra cost, except on Station-to-Station calls of 20 cents or less for initial period which take a higher rate when sent collect. When placing a collect call, the operator will ask the person you are calling if he will pay the charges.

**Long Distance Conference Service** permits connection to your telephone line of persons in different cities so that each can talk with the others. Just call "Long Distance" and ask for the Conference Operator.

**International Telephone Service**— Information on availability of telephone service to points in other countries and the rates applicable thereto may be obtained by calling "Long Distance." Some typical weekday rates for a three minute call are: To Argentina, Australia, Denmark, Italy, United Kingdom, \$12.00; Costa Rica, Dominican Republic, Colombia, Venezuela, and the U.S.S.R., Haiti, and Hawaii \$9.00; to Bahamas, Puerto Rico, Virgin Islands, and Bermuda \$7.50. Reduced rates apply on calls to many countries during certain night hours and on Sunday.

**Telephone Recording Signal**—A short high "beep" tone heard on the telephone line about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his recording machine connected to the telephone line. This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder, the signal is no longer heard. The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

# AMES

★

Everyone recognizes the value of organized effort. The Ames Chamber of Commerce and the Ames Junior Chamber of Commerce represent organized effort in building the community, promoting civic projects, and making our city a finer place in which to live.

They are your organizations. Be a member and have a real active part in building your home, business, and community.

Club Rooms . Sheldon-Munn Hotel  
 Office . . . . . 505 Kellogg

**Ames Chamber of Commerce**  
 Phone 30

*Mr. Architect*

*Mr. Contractor*

An important feature of modern homes is concealed telephone wiring with telephone outlets in rooms where portable telephones can be plugged in. The cost of installing concealed service entrance and wall conduit is low if included when the home is being built or remodeled.

We will be glad to help you plan for modern home telephone facilities. Just call 40 and ask for Architects' Builders' Service.

# Do You

**KNOW?** Other members of your household can be listed with your number in the telephone book. Helps their friends and business associates to reach them by telephone.

Call the telephone business office for information.

(Continued on page 7)

Adding thousands of new telephones  
and associated equipment to keep pace  
with demands for service is a huge  
undertaking. Large sums must be  
spent — a great deal of  
work done.

MRS. MARJORIE  
 MURPHY, Mgr.

Do you answer your  
 telephone promptly? Unless you  
 do, the person calling may decide  
 no one is there and hang up—and  
 you will miss the call.

Party-line telephone  
 service is most satisfactory when  
 users share the line with others as  
 they would like others to share it  
 with them.

More than 20,000 people are required to provide telephone service in the territory your Telephone Company serves in Iowa, Minnesota, Nebraska, North Dakota, and South Dakota

## TALK DIRECTLY INTO THE TELEPHONE

The proper way to use the telephone for best results is to hold the transmitter directly in front of the lips and talk clearly and naturally.

## THE BUTCHER

## THE BAKER

## THE CANDLESTICK MAKER

No matter what you want to buy, the chances are good you'll find the name and address of someone in your community who sells it, listed in these pages.

***Emergency!***

Sometimes an emergency arises when you must make a call — and the other party is on the line. Just explain the situation briefly and he'll hang up . . . just as you would in similar circumstances.

**WHY CONDUIT IS NEEDED  
FOR TELEPHONE WIRES**

Telephone entrance conduit improves the appearance of a home. Telephone conduit in walls provides for concealed wiring to telephone outlets in rooms where portable telephones can be plugged in.

Telephone service engineers will assist without charge in planning for telephone conduit and wiring. Just call 40 and ask for Architects' and Builders' Service.

TUBES FOR  
LONG DISTANCE

Thirty years ago the first effective high-vacuum tube for amplifying electric currents was made in Bell Telephone Laboratories.

Developed and refined by constant Laboratory research and made in quantity by Western Electric, today more than 1,250,000 such tubes are at work for Bell System telephone users in clear long distance speech.

Bell Telephone Company.

# ★ ★ ★ RESEARCH

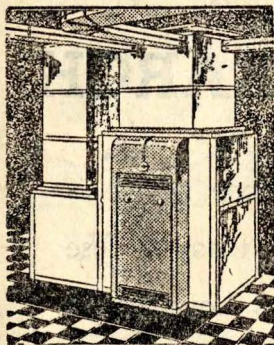

Telephone service is  
what it is today because  
engineers have never  
stopped working to learn  
more about speech and  
hearing. In the Bell  
Telephone Laboratories  
hundreds of scientists  
engage in constant re-  
search. The results? You  
can talk more easily and  
be heard more clearly  
over the telephone to-  
day than ever before.

This telephone com-  
pany, as a member of  
the Bell System, passes  
on to its customers the  
better service this re-  
search makes possible.

## Before You Insulate

If you plan to insulate your home, it's important to provide concealed wiring to telephone convenience outlets in outside walls before starting the job. After walls are insulated, it is difficult and sometimes impossible to conceal telephone wires. Just call and ask for Architects' and Builders' Service.

**EVER TALK  
OVER  
THE RADIO?**

If you have, you know you must stay close to the microphone and talk directly into it. A telephone is a "mike" too, and to be heard best you must talk straight into it, with your lips one-half inch from the transmitter.

New telephones, switchboards, cable, and buildings are going into service as your Telephone Company speeds its largest construction and improvement program.

The Bell Telephone System now furnishes service over more than 30 million telephones or 48 per cent of all in the world.

# THE TELEPHONE GOLDEN RULE

Answer your telephone as promptly as you would like others to answer you, and wait as long for an answer as you would have others wait for you.

## TALK INTO THE TRANSMITTER

To be clearly understood at the other end of the line, talk directly into the mouthpiece of your telephone. For best results, lips should not be more than half an inch away.

## MOTORCYCLES for SPORTS, POLICE, COMMERCIAL

**I**F YOU SHARE a party  
line, you are making it  
possible for others to have  
service . . . so share the  
line with your Telephone  
Neighbors.

Looking up the number in the directory  
before placing a telephone call usually  
saves time and often avoids wrong num-  
bers and inconvenience to others.

Pleasing telephone service, provided to  
meet your needs is our constant aim.

## Planning to Paint?

When you are planning to redecorate or modernize your home, remember to have a telephone service engineer assist you in rearranging your telephone service for maximum convenience. He can help you arrange for concealed wiring to telephone convenience outlets at the proper locations. Just call 40 and ask for Architects' and Builders' Service.

**NORTHWESTERN BELL  
TELEPHONE COMPANY**

You'll hear,  
and SEE, over  
cable like this

Coaxial Cable — a development of the Bell Telephone Laboratories, successfully transmits the wide range of frequencies used in TELEVISION.

Installations of this cable now in use helped greatly in handling war-time Long Distance loads, as each pair of "coaxial" tubes carry hundreds of simultaneous conversations.

Soon a network of "coaxial" cable will greatly increase Long Distance circuits, and may also carry television broadcasts, much as telephone wires now distribute chain radio broadcasts.

*It's a good thing  
for party-line  
telephone users to do*

When party-line users put themselves in "the other fellow's shoes" it reminds them to be thoughtful of others—such as making sure the line is not in use before placing a call and if it is, hanging up quietly and promptly.

The aim of the Bell System—the best  
service at the lowest cost consistent  
with fair treatment of employees  
and those who have savings  
invested in the business.

# Two Friendly Telephone Habits

*Quick*

to answer when the  
bell rings.

*Slow*

to hang up when  
you call someone  
who doesn't imme-  
diately respond.

In calling others, remem-  
ber that the called person  
may be almost there — so  
wait a few seconds longer  
and save another call.

## DON'T HANG UP TOO SOON

It takes time to get out of the basement, attic, or bath. Please allow a full minute for the person you call to answer. It's courteous, and may save a second call.

The brand you want can be found quickly  
and easily in the Yellow Pages.

# IOWA STATE COLLEGE

## Telephone Directory

FROM AMES TELEPHONES CALL 2500

### Emergency and Special Calls

**FIRE** (to report a fire) from 7:30 a. m. to 10 p. m. except Sundays 9 a. m. . . . . Dial "O"  
(At all other hours dial "9" and call "Fire Department")

**LONG DISTANCE**—from 7:30 a. m. to 10 p. m. except Sundays 9 a. m. . . . . Dial "O"  
(At all other hours dial "9" and ask for "Long Distance")

### Use of the Dial Telephone

After obtaining the correct number from the directory, remove the receiver and listen for the dial tone. It is a steady humming sound which lets you know that the central office equipment is ready to receive your call.

#### How to Dial

Dial each figure of the number you are calling in the order shown in the telephone directory.

Take, for example, the dialing of telephone number 763. After hearing the dial tone, place the forefinger firmly in the dial opening through which the figure "7" is seen. Turn the dial around in a clockwise direction until your finger strikes the finger stop. Remove your finger and let the dial return to its normal position without forcing or retarding its movement. The remaining figures "6" and "3" may be dialed in a similar manner.

If you make a mistake while dialing, or if your finger slips from the dial before reaching the finger stop, hang up the receiver for a few seconds. Then remove it and, after hearing the dial tone, dial each figure of the number again.

#### Service Signals

**Ringng Signal**—This is a "burring" sound that will be heard at regular intervals which indicates that the bell of the called telephone is being rung.

**Busy Signal**—This is a "buzz-buzz-buzz" sound that will be heard when the line of the called telephone is in use.

Should you hear neither of these signals after dialing, dial "0" and tell the operator of the condition.

#### Calling From College Telephones

**To Other College Telephones**—To call another telephone connected with the college

telephone system, lift the receiver and upon hearing the dial tone, dial all three figures of the number in the order in which they appear in this section of the directory.

**To Outside Telephones**—To make a call to a telephone not connected with the college telephone system, lift the receiver from the hook and upon hearing the dial tone, dial the figure "9." Give the number of the telephone you wish to reach to the operator who answers.

#### Calls From Outside Telephones

To call a college telephone from telephones not connected with the college telephone system, telephones without dials, call 2500. Give the number of the college telephone you wish to reach to the college operator who will answer and handle your call. Numbers of college telephones are listed in the following pages.

#### Night Calls

The college switchboard is closed from 10 p. m. to 7:30 a. m., except Sundays 9 a. m.

During these hours see the instructions and night number list on page 12.

#### Non-Listed Numbers

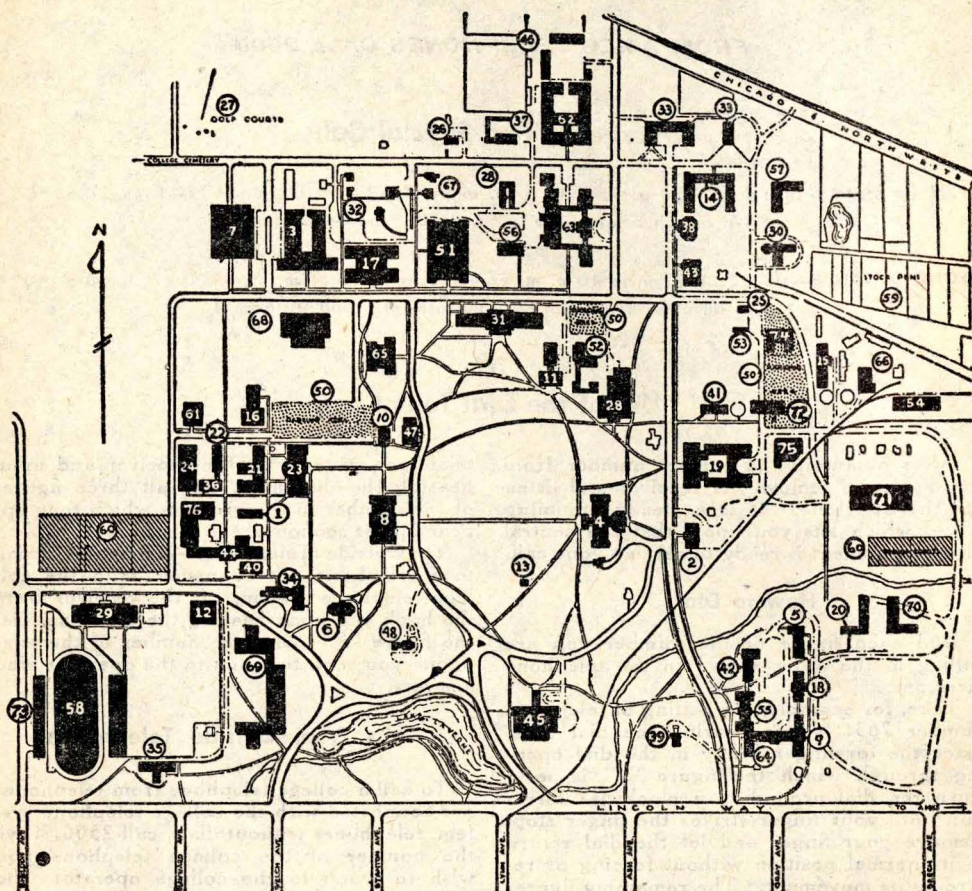

College telephone numbers added or changes made too late to be included in this directory will be furnished by the college operator. She may be reached from college telephones by dialing "0" and from "outside" telephones by calling 2500.

#### Directory and Service Changes

All changes in telephone service or directory listings for college telephones should be handled through the Iowa State College Business Office.

Feb. 26	Kansas State at Ames
Mar. 4 & 5	Conference Meet, Lincoln
*	Minnesota at Ames
*	Illinois at Ames
*	Michigan State at Lansing

\* Dates to be arranged.

# OUR POLICY

The policy of this organization, as a part of the Bell System, is to provide the best possible telephone service at the least cost to the public consistent with fair treatment of employees and the financial safety of the business.

Operating under this policy, the Company has a three-fold obligation as follows:

Our obligation to the public is to provide pleasing and constantly improved and broadened service, which is as free as possible from errors, imperfections and delays and to furnish such service at the lowest practicable charges.

Our obligation to employees is to pay wages that are in all respects fair and just; to provide safe and agreeable working conditions, and to deal fairly and considerately with each individual and group.

Our obligation to investors is to provide every reasonable safeguard for the money thousands of men and women have invested in the business and to operate the property so that it will yield a fair return.

NORTHWESTERN BELL TELEPHONE COMPANY
